Dear Resident

From mid-November Surrey County Council is consulting on creating a 20mph zone in Wonersh. This is your chance to make your voice heard in the following ways:

Tuesday 17th November 7.30pm Public meeting at the Memorial Hall including update from the Parish Council and opportunity to hear latest resident views

Wednesday 25th November 3.30pm - 7pm Exhibition of scheme plans at the Memorial Hall and a chance to talk to officers from Surrey County Council

On line consultation will become available at: https://www.surreycc.gov.uk/roads-and-transport/policies-plans-consultations/consultations

Advantages of 20mph in the village

- At 20mph we should achieve a pedestrian crossing point in Wonersh. At the current 30mph, a crossing requires street lighting which is prohibitively expensive.
- Travelling at 20mph rather than 30mph halves the distance drivers need to stop in time, leading to less frequent road collisions. Children hit by a car will have a high chance of survival.
- Research shows that 20mph reduces congestion, increases fuel efficiency, reduces both traffic noise and air pollution. It will make walking along the main road and in the centre of the village a quieter, more pleasant experience.

The Parish Council urges you to attend one or more of these events. We look forward to hearing your views.
